

SIT DAG Rerun Table Columns - 2026-06-15

Source: live SIT Airflow rerun and live SIT DB `information_schema.columns` verification.

All tables listed below were checked with `chinese_columns=NONE`.

DAG	Table	Rows	DB columns
proj_city_dashboard_food_hygiene_award_locations	food_hygiene_award_locations	1855	data_time, source_agency, award_year, business_name, registration_district, area, lat, source_reward, award_image, wkb_geometry, _mtime, ogc_fid
proj_city_dashboard_food_supply_market_locations	food_supply_market_locations	79	data_time, source_agency, source_record, district, area, market_name, address, phone, description, total_stalls, vegetable_stalls, fruit_stalls, meat_stalls, seafood_stalls, poultry_stalls, grain_stalls, flower_stall, grocery_stalls, department_store, food_stalls, other_stalls, wkb_geometry, _mtime, ogc_fid
proj_city_dashboard_organic_farm_locations	organic_farm_locations	66	data_time, source_agency, source_record, farm_name, operation, address, district, certification, certification_expire_date, farm_area_hectare, food_education, beekeeping, chicken_raising, lng, lat, wkb_geometry, _ctime, _mtime
proj_city_dashboard_urban_planning_tpe	urban_planning_tpe	105	data_time, district, land_use_zone, zone_count, _mtime, ogc_fid
proj_new_taipei_city_dashboard_urban_planning_new_tpe	urban_planning_new_tpe	333	data_time, district, land_use_zone, zone_count, _mtime, ogc_fid
proj_city_dashboard_purchase_subsidy_application_status	purchase_subsidy_application_status	19	data_time, city, application_planned_hours, approved_hours, _ctime, _mtime

DAG	Table	Rows	DB columns
proj_city_dashboard_rental_subsidy_application_status	rental_subsidy_application_status	19	data_time, ci application_ planned_hous approved_hou _ctime, _mtim
proj_city_dashboard_repair_subsidy_application_status	repair_subsidy_application_status	19	data_time, ci application_ planned_hous approved_hou _ctime, _mtim
proj_new_taipei_city_dashboard_purchase_subsidy_application_status	purchase_subsidy_application_status	19	data_time, ci application_ planned_hous approved_hou _ctime, _mtim
proj_new_taipei_city_dashboard_rental_subsidy_application_status	rental_subsidy_application_status	19	data_time, ci application_ planned_hous approved_hou _ctime, _mtim
proj_new_taipei_city_dashboard_repair_subsidy_application_status	repair_subsidy_application_status	19	data_time, ci application_ planned_hous approved_hou _ctime, _mtim

Note: the three housing tables are shared by Taipei and New Taipei DAGs and use replace behavior. The last successful rerun was the New Taipei DAG set, so the current table data values have city = 新北市. This is a data value, not a DB column name.
